# M4 Forex Edition

M4 is a professional web & mobile trading platform, featuring real-time quote screens, charting, optional auto-trading, scripting, back testing, expert advisers, stock scanning, alerts, auto trading / robo trading, CRM, payment processing, risk management, PAMM accounts and other advanced features.

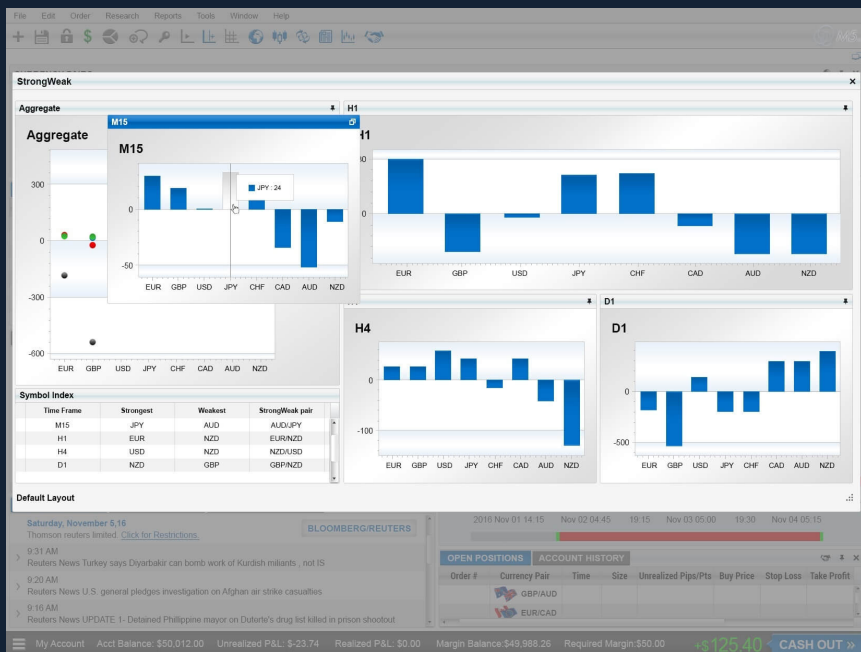

# Advanced Charts

M4 features real-time, tick-by-tick charting with High-Low-Close bars, Open-High-Low-Close bars, 2D & 3D Candlestick charts, and optional Renko, Kagi, Three Line Break, Point & Figure, Candle-Volume, Equi-Volume, Shaded Equi- Volume, Heikin Ashi Candlesticks, and other price styles.

# Strong vs. Weak

The Strong vs. Weak app feature shows the strongest and weakest currency pairs, saving countless hours of chart analysis.

The Strong vs. Weak feature aggregates gains and losses of a base currency against all other major currencies.

TODAY'S NEWS		MARKET ANALYSIS	ECONOMIC CALENDAR
